SUBJECT: GOK DOCUMENTS IPR EFFORTS

REF: KUWAIT 264

**¶11.** (SBU) On March 17, Post received a Diplomatic Note in response to our written request in January soliciting input for the 2007 Special 301 Review. With the Note is a letter from the Ministry of Commerce and Industry to the Ministry of Foreign Affairs which includes a statement detailing seizure totals for various counterfeit products. The totals are for raids and seizures conducted by the Ministries of Commerce and Information, and appear to be credible (the Ministries verbally reported similar seizure totals to Econoff during Post's preparation of its Special 301 submission). The statement does not include the activities of Kuwait Customs (see Ref A for discussion of Kuwait Customs' seizures during 2006). Although the submission is late, the fact that the GOK responded to the request for Special 301 input is an encouraging sign, as we received no written input for the 2006 review despite our request. It also points to the increasing effectiveness of the inter-ministerial IPR committee (lead by the Ministry of Commerce) at gathering data on the enforcement activities of the various offices with IPR responsibility, and to better record-keeping by enforcement personnel in general. The document will also serve as a useful reference for us to follow up on how the Kuwaitis handle prosecutions of the most egregious offenders.

The Ministry of Information seized 116,165 items during the year. These included seizures of counterfeit cassette tapes, hard disks, XBoxs, catalogues, and VHS tapes, totaling 16,377.
